REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art made of record does not disclose or teach the specific message program control method or apparatus as claimed in claims 1, 8, 9, 10, and 12 including a memory table for storing a required number of message stages having a same message parameter, and when the desired message stage is stored in the memory table as a result of the change in message parameter, another message stage stored at a predetermined position in the memory table is deleted from the memory table, and the message parameter of another message stage deleted from the memory table is changed such that the message program is completed within a predetermined time period, and utilizing an input unit configured to input the change in the message parameter during the execution of the message program, and the message program being configured to acknowledge the change in the message parameter made through the input unit during the execution of the message program, modify the individual message parameter reflecting the change, and store thus modified message parameter in the memory.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
